

Urgent Need!!

Minnesota Lion's Eye Transporters

- I am willing to head up this program as the Lions Transportation Coordinator.**
This person will design and head up the program, assign a club(s) to each hospital, identify drop-off locations, train the transporters, and trouble shoot problems.

- I am willing to be a Lion's Eye Transporter.**
These people will transport eyes to designated drop-off points in a relay on an on-call basis.

- I am willing to be a Lion's Transport Dispatcher.**
These people will each coordinated the eye transportation from a specific facility. They may either set up a monthly call schedule of transporters, or they may choose to have a system in which they call through a list and find a transporter at the time of a need.
