One more **Pancake Breakfast**

April 30 No. Surburban Roseville H.S. 8-1pm

Witty Senior's Response

A college student at a recent Carolina football game challenged a senior Citizen sitting next to him, saying it was impossible for their generation to understand his.

"You grew up in a different world," the student said loud enough for the whole crowd to hear. "Today we have television, jet planes, space travel, man has walked on the Moon, our spaceships have visited Mars, we even have nuclear energy, electric and hydrogen cars, computers with light-speed processing, and, uh ."

Taking advantage of a pause in the student's litany, the geezer said, "You're right. We didn't have those things when we were young; so we invented them, you little shit! Now what the hell are you doing for the next generation??"
